**Infinity Galaxy**, a reliable supplier of the National Highways Authority of India (NHAI) and Kenya National Highways Authority (KeNHA), provides various grades of Bitumen, such as Cutback Bitumen, Bitumen Emulsion, Oxidized Bitumen, Bitumen AH Grades, Penetration Grades, Viscosity Grades (VG Grades), Australian Grades, Asphalt Cement Grades (AC), Bitumen Performance Grades, Iraq Bitumen and Crystal for all the markets.

Infinity Galaxy supplies high-quality bitumen in all forms of packaging, such as "Short Drum Big Lid (Lid: 16~18 cm)", "Long New Steel Drum", "Short New Steel Drum", "Jumbo Bag" and "Bulk".

Based on the customer's request, we provide various grades of bitumen with the specified Technical Data Sheet and the desired packaging.

- ▶ What Is Bitumen? How Is It Produced?
- ▶ All You Need to Know About Penetration Grade Bitumen
- ▶ What Bitumen Packaging Is Suitable for Your Cargo?

# Mineral Turpentine Oil (MTO)

## White Spirit (LAWS)

### Naphtha ↑

**Small Molecules:**

- Low boiling point
- Very volatile
- Easier to ignite
- Flows easily

**Large Molecules:**

- High boiling point
- Not very volatile
- Harder to ignite
- Does not flow easily

### Rubber Process Oil (RPO)

Base Oil

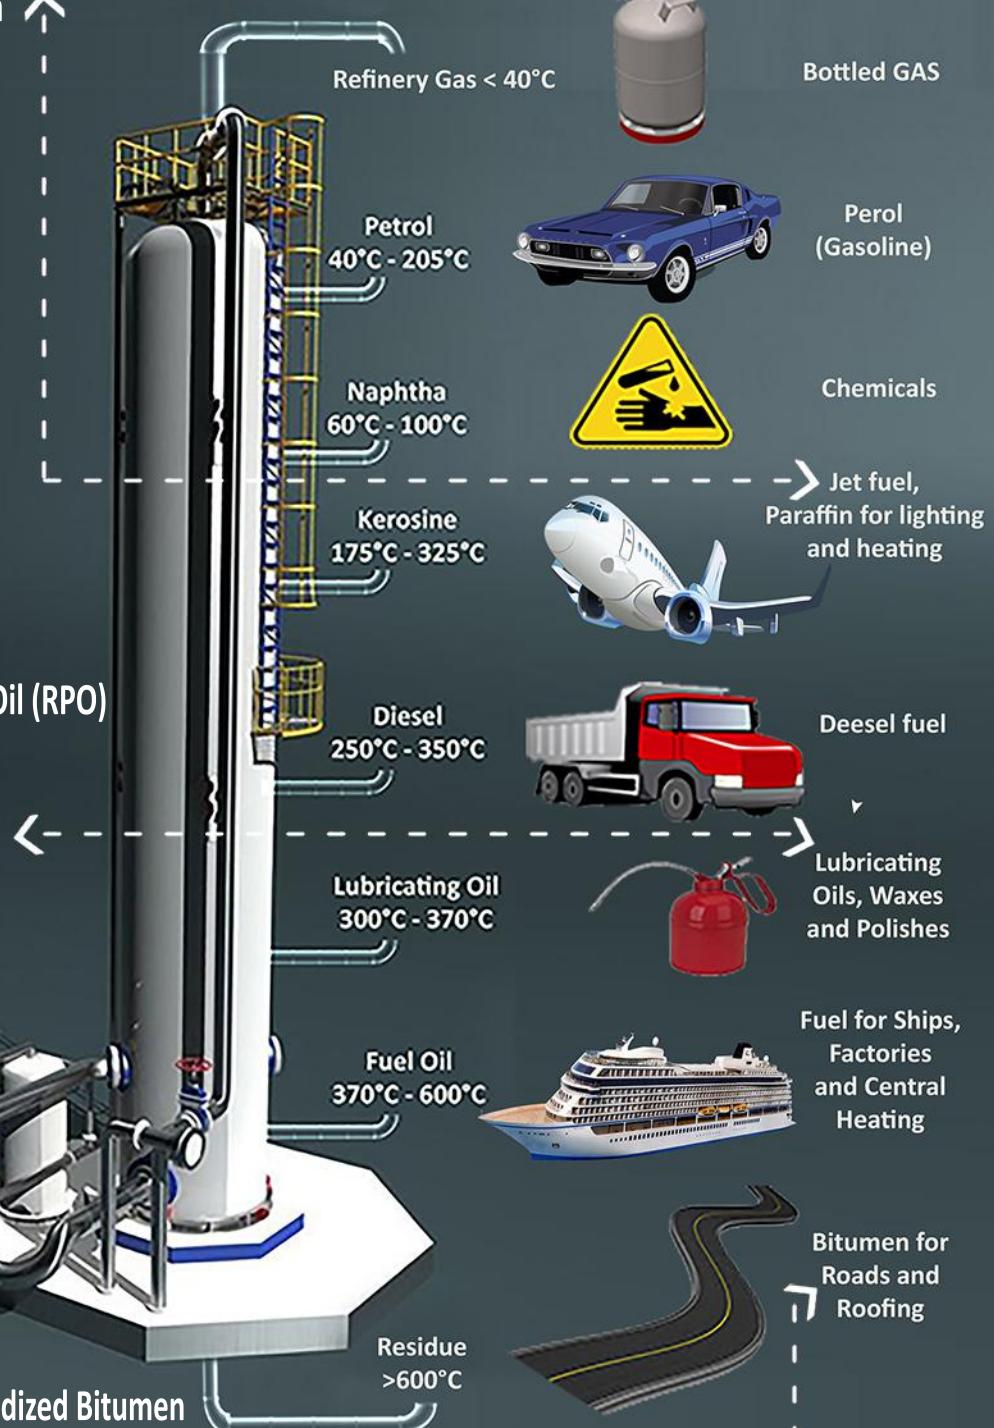

Slack Wax

Paraffin Wax

Residue Wax

Petroleum Jelly

Crude Oil

**VG10 Oxidized Bitumen**

**VG30 AC Grades**

**VG40 Cutback HOT (350 °C)**

**40/50 Emulsion**

**60/70 Gilsonite**

**80/100 Crystal**

**AH Grades**
